DETAILED ACTION

Allowable Subject Matter

1. Claims 1-17 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art references either alone or in combination fail to disclose, teach or suggest a transport assembly comprising: a gas generator having an outer housing which has at least one outflow opening and a removable transport cover which is detachably fastened to the outer housing and extends around the outflow opening of the outer housing, further outflow openings being arranged in the transport cover, and a plug connection being provided between said transport cover and said outer housing. These structures in combination with other structures in the claims define over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
